MEMORANDUM FOR: Director of Personnel

Bob:

Kent Crane of the Vice President's office telephoned me yesterday from the hospital to express his complete satisfaction with the arrangements which have been worked out to supply him with three girls from our pool on a continuing rotational basis. This was, however, an opening ploy to ask for the services of [REDACTED] on an indefinite basis. He explained that the plans he had made for another secretary have fallen through and that he would like very much to have [REDACTED] stay on with him. I told him that I didn't want to say that we would assign her there permanently, but that we certainly would not recall her precipitously and in any case not until sometime after his return from the hospital.

I guess what all this adds up to is that her "indefinite" status means she will be there on a fairly permanent basis and until we have some attractive job to offer her, in which case I will take it up with Kent Crane.

[REDACTED]

L. K. White
